TRENCH SHEETS

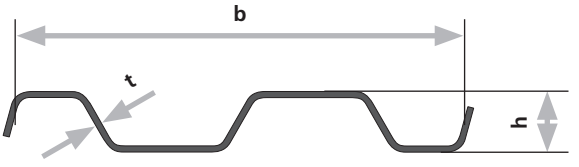

In our workshop in Heinsberg we roll trench sheets and interlocking profiles, in a variety of shapes and dimensions, on a cold rolling mill. With our wide range of mass-produced trench sheets, you will be able to find the suitable product for a wide range of building projects. All interlocking profiles can, if the customer so wishes, be supplied already sealed. This involves sealing the locks with a special sealant.

Furthermore, there is also the option of trimming the profiles after they have been manufactured and supplying them as corner profiles.

SBH Profile	Width b [mm]	Height h [mm]	Thickness t [mm]	Moment of inertia I [cm⁴/m]	Moment of resistance W [cm³/m]	Weight per m [kg/m]	Weight per m² [kg/m²]	Permissible bending moment S235JRC [kNm/m]	Permissible bending moment S275JRC [kNm/m]
KD 6/8	600	80	8	968	242	50.0	83.2		51.5
